2 Sampson Street • Sayville, NY • 11782

EDUCATION

App Academy   **2015-2016**
Intensive web development training program teaching full-stack web development skills, with a less than 3% acceptance rate

Binghamton University - *Bachelors of Science in Computer Science*   **2012**
Relevant Coursework: Algorithms, Operating Systems, Internet Programming, Programming Languages, Software Engineering

PROJECTS

FeatherNote *(Ruby on Rails, React, PostgreSQL, BCrypt)*   link | github
Single-page note-taking application inspired by Evernote
• Provides rich-text editing of notes through Quill JS library
• Binds user actions to AJAX requests, providing real-time updates to content
• Incorporates dependent destroy model associations to ensure data integrity
• Integrates OmniAuth to allow users to login through Facebook

Barbershop Appointment Scheduler *(PHP, MySQL, Javascript, JQuery)* github
Web-based application to schedule, manage, and view appointments
• Searches send AJAX request returning dashboard of customer information
• Decreases form completion time by binding fields to scheduler events
• Designed custom lightbox for ease of use on touch-screen devices

DinoJump *(Javascript, HTML, CSS)*   link | github
Inspired by Google Chrome's "Unable to connect to the Internet" game
• Binds keyboard events to CSS transitions navigating the game
• Prototypal inheritance separates responsibilities and keeps code DRY

EXPERIENCE

System Analyst - *Consolidated Edison*   **2013-2015**
• Supported development tools Team Foundation Server (TFS) & Visual Studio
• Led migration of over 100 SharePoint sites to upgraded TFS servers
• Engineered development environment for dozens of classic ASP applications

Management Associate - *Consolidated Edison*   **2012-2013**
• Completed GOLD leadership training program
• Program consists of three 6-month rotations in various departments
• Supervised company workforce and contractors during two rotations
